

ILLINOIS PEOPLE'S ACTION HELP US KILL EXELON'S BAILOUT BILL!

Less than a week ago, Exelon -- the owner of Illinois' nuclear power industry and one of the largest energy companies in the world--introduced a new bill to the Illinois Senate. SB 1585 is disguised as a "new generation" energy plan for our state, but is nothing more than a giant bailout for Exelon.

To make things worse, Exelon is using their energy monopoly to strongarm our lawmakers, threatening to close 2 nuclear power plants if the bill doesn't pass by May 31st.

SB1585 takes tax dollars out of our hands, and puts them straight into the pockets of Exelon. Our tax dollars should not be used to keep dangerous nuclear energy in business. Instead, our tax dollars should be invested in the clean energy future that our state and planet needs!
